TOWN OF PROVINCETOWN

Growth Management Allocation Permit Application

Property Location_____

Applicant _____Phone _____ Email _____

Mailing Address_____

I am requesting a Growth Management Allocation Permit for the following: Please check those that apply.

O New Residential Construction/new structure(s) Number of Units _____ Total number of bedrooms _____

O Residential Addition (bedrooms) to an existing structure Number of new bedrooms _____

O Change of Use / Commercial Expansion (please explain, square footage of expansion) _____
_____

I have a scale calculation and have applied for all other permits, (except building and occupancy permits), licenses, special permits, variances, determinations and/or orders of conditions for the proposed construction and/or uses, including if applicable, affordable housing permits awarded by the PCHC.

I understand that my Growth Management Allocation Permit Application will not be considered complete until all of the required regulatory approvals have been met as indicated below. If no growth is available at that time, the project will be placed into a queue and issued by priority pursuant to Article 6 of the Zoning Bylaw.

Date GM permit complete or placed in queue

This Permit as approved is directly tied to the accompanying building permit or occupancy permit and all regulatory approvals above. The applicant shall submit a complete building permit application within 120 days of this approval, or, if there is a queue, within 120 days of the allocation of gallons by the Board of Selectmen. This Permit shall expire if a complete building permit application is not submitted within the 120 days, if a complete building permit aplication or occupancy permit is submitted but denied or, if issued, expires. If this permit expires, the Growth Management Allocation will be revoked and the project will lose its place in the queue. Changes to the building permit which affect any regulatory approval shall result the forfeit of the allocation and the project will lose its place in the queue.
