# Policy Statement

2016-11-28

## Town of Provincetown LED/CFL Lighting Policy

In recognition of the need to make more efficient use of our natural resources and serve as a model for private and public institutions, the Town of Provincetown is committed to purchasing lighting products, which are environmentally preferable and consume less energy during the replacement or retrofit of an existing facility whenever such products meet quality requirements and are available at reasonable price and terms.

To the maximum extent practicable the following standards should be adhered to:

1. Roadway lighting under the purview of the Town of Provincetown will, to all extents practicable, be retrofitted to energy efficient fixtures, which are Dark Sky compliant in a similar fashion to the program with the Cape Light Compact.
2. Building lighting fixtures, to all extents practicable, shall be retrofitted to energy efficient fixtures, which are Dark Sky compliant, as they need to be replaced or as part of energy reduction measures performed under the Building Maintenance Plan where such products and procedures are deemed to be most advantageous.

*Adopted: November 28, 2016*

*In Favor: R. Richter; E. Yingling; T. Donegan; C. Andrews; R. Anthony*

*Opposed: None*
