

Harbor Committee January 27, 2021

David Flattery Call to order 05:04 PM Roll Call Vote Present:
David F, Elise C, John S, Laura L, Wendy L, David G.

Absent Susan A.

Staff: Rex Mc, Don G, Ginny B, Doug B, Steve W.

Public Statements: None

Public Art Project: Mark Adams presenting.

Sea Walls between the town piers is proposed area using environmentally friendly materials showing marine harbor, marine ecosystem with themes. Proposed test run with 10' scale working with natives and coastal studies and a preliminary design.

Wendy= move to recommend to Select Board Proof of Concept Installation on sea wall. David G second.

Discussion: John has not seen it. Laura-Ptown deserves a mural on seawall. It is the entrance to town and Mark's work has been around for a while on the cape and she highly encourages us to approve. Elise-Public Art Foundation is funding this. Wendy Loves the idea. David F- finances support it. David G is a fan of Mark's work.

Roll Call Vote: Elise-Y Wendy-Y Laura-Y John-Nay David G-Y David F-Y 4-1-0 motion carries.

Rex recommends Don German to assist Cultural council or arts council to help Mark.

Don said he is not on cultural council any more but will be happy to help.

Member project updates: Laura asked about restored groynes in east end that may have fallen in storms. Rex said maybe 1 or 2 are down by ice house and maybe 1 at Allerton

Avenue. Some have leaned.

Laura said there might be more types of rocks or more money involved?

John said the dredging permit expires July 2021. Rex and Doug will look at permit.

David to Doug-Permit? He will have to check when he and Rex meet.

Doug: Courtesy Float Repair. Ginny stated we are requesting a collaboration with the harbor committee and the harbor access gift fund since the float is access to the water and a gateway to the town from the water and we are hopeful to work together replacing pilings.

John asked what is being done on transportation float

Doug said he sent us a letter about the pilings on the courtesy dock and we want feedback.

Laura looked at who has jurisdiction on courtesy float and is it DPW or Town or Pier?

Doug said it is Pier that does electric, pump out, maintenance. The pilings need to be repaired now. New float in future.

David F- Who is responsible

Wendy- they want to team up with Harbor committee

Doug- we have the money =. Carlos V asked if we want to team up at one of their meetings. The pier Corp pays maintenance and it is long overdue.

David- How much? When you come to committee you ask for a certain amount.

Doug- We want to "join in efforts" total cost \$44,000

Wendy- collaborating would be great

Doug- moving forward you would help in deciding on needs or changes, size, materials since it is a group effort and use

David G-public use and gateway to Provincetown and future plans

David F- how long has pier corp been overseeing

Doug- over 20 years

Ginny- Harbor Committee is responsible for harbor plan. We would like to plan together.

Laura would like to volunteer to discuss it with them.

Don- think about an advisory committee on how it will work together

David F-and changes with stellwagen plan

Harbormaster report-boat has moved and paid excise tax and fees paid. Clean Vessel grant submitted to Town Hall then to the state. They gave us amount to purchase pump out boat and every year we submit salaries, maintenance, fuel and state reimburses us up to \$75,000

David-How is Pier corp with pump out?

Don-Pier Corps pays seasonal workers, fuel so they get reimbursed. And I did annual report

David F-Don works with pier on annual report.

Don-100% of my salary is from Town Manager. Seasonal is paid by pier corp. We have shared staff and work jointly and help each other.

David F-more specific-who supervises

Don-it works out

David F - convoluted

Don wants to thank Steve W for replacing the prop with shellfish funds

Elise had a question about barges, work boats inside breakwater and boats at Jerome Smith pairing lot. Don said that is police issue

Rex report= Chapter 91 manual sent to DEP then it goes to Building Dept then Training 1-1.5 hours virtual training.

Blue economy signage with Cape Cod Chamber is paying for some and we will cover the rest. David Dunlap Building

Provincetown can fill in some info. Maybe QR codes and we need a website built and other info like shellfish beds open or closed, water quality etc. David G, Wendy and John S volunteered to check town landings and info for content on and excellent sheet and bring back to committee. David needs target dates and to bring in shellfish committee too. John had point of order about 3 members. No problem if they send individual notes to only John.

Laura suggested beach side markers to Commercial Street Stellwagen Bank visitor center-current design team has looked at sites, webinar and survey is on line at CCS website. They will go to Select Board with 2 sites then permitting and funding. Laura said website is lacking info that it will be energy efficient with renewables etc. Rex noted advantages and challenges.

New Business=Rex=annual report needs some edits. John stated he is not receiving some emails. Reviewed his email Elise move to adjourn 6:23 pm John second roll call vote unanimous

Minutes approved at their meeting on March 17. Rx
