AGENDA

I. The meeting was called to order at 8:30 p.m.

Peter Markunas of Woods Hole Group, Inc. was introduced to the ConsCom by the Harbor Committee chairman. Peter went thru a presentation of slides describing the affected area of the Notice of Intent. Discussion centered on the Beach Point area specifically from about 749 Commercial St. to the town line. This area encounters a lot of seaweed, mostly eelgrass, during July and August sometimes "waist deep" according to abutters. Removal of this amount is more than the capability of the Surf Rake probably needing a front-end loader. The PHC chairman requested a continuance until Jan. 11. The ConsCom agreed. Hearing adjourned at approximately 9:15 pm.

Respectfully submitted,

Jerry Irmer
