Excused Absence: David McChesney

Other attendees: Town Manager Sharon Lynn, Assistant Town Manager David Gardner, DPW Director David Guertin

Recorder: David Gardner

PUBLIC FORUM REGARDING THE COMMERCIAL STREET PAVING, DRAINAGE AND WATER MAIN REPLACEMENT PROJECT

Project Manager Russell Kleekamp and Project Engineer Jessica Janney, GHD, Inc present.

The Provincetown DPW with consulting engineers GHD, Inc. presented an introduction and overview of the comprehensive Commercial Street paving, drainage and water main replacement project between Johnson Street and Court Street.

Topics covered include a project overview, location, estimated construction times, construction concerns, water main and service replacements, challenges and public awareness.

The overall project costs will be approximately \$2,000,000. The project did receive a state grant of \$1,000,000.

Overall project scope will start at Johnson St and extend approximately 2400 feet (Court Street), if bids come in lower, then there is a potential to add additional area. Work to include the reconstruction of Commercial Street, including paving, curbing, side walks, replacement of the water main, new services, new drainage, and streetscape elements. Street paving will be done with porous asphalt which serves to help reduce the need for additional stormwater infrastructure and improves water quality in the bay.

The project manager, Russell Kleekamp, will be meeting with property and business owners over the course of the summer to understand the unique attributes of adjacent properties as the design develops. He will hold office hours in town on Thursday, from 1:00 PM to 5:00 PM each day throughout the summer. Schedule appointments through DPW.

Question and answer period followed.

Motion to adjourn by Austin Knight at 7:07 PM.
