Provincetown Recovery Coalition

APRIL 22, 2020, 3PM-5PM

Robin L. Craver, Town Manager
508.487.7002
rccraver@provincetown-ma.gov

Mission

To engage representative stakeholders of the major sectors to advise the Provincetown Town Manager in the development of plans that will facilitate the operation of the town and its businesses to serve residents and visitors while maintaining the health and safety of everyone during the summer and fall of 2020.

Provincetown Recovery Coalition

Scope of Our Work

	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Assess current situation, predict response									
Review authority and develop local priorities									
Collect data, literature, and best practices									
Develop predictive models, and review model outcomes across sectors									
Propose plans and workshop plans with stakeholders across sectors									
Implement Plans									
Monitor results and adjust plans as needed									

Timeline

	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Assess current situation, predict response									
Review authority and develop local priorities									
Collect data, literature, and best practices									
Develop predictive models, and review model outcomes across sectors									
Propose plans and workshop plans with stakeholders across sectors									
Implement Plans									
Monitor results and adjust plans as needed									

Immediate

- Assess current situation and predict the short-term likely situation and response
- Review and prioritize our local authorities in relation to Federal and state authority
- Collect and develop data, literature and research and study best practices to guide us

Short Term

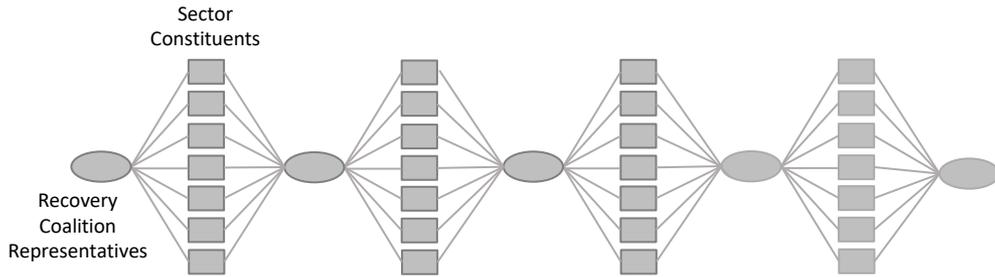

- Develop predictive models for disease spread, response capacity, and risks in order to guide decision-makers
- Understand the impact of various models on town businesses, service and care organizations, at-risk populations, town finances
- Propose plans for various scenarios over mid-range (June – August) and longer range (September – December) with agreed actions at specific points tied to infection rates, health care capacity and voluntary compliance
- Communicate these plans to the larger community to seek critical feedback and secure buy-in
- Implement plans

Longer Term

- Monitor results
- Make adjustments

Operating Model

How We Will Get the Work Done

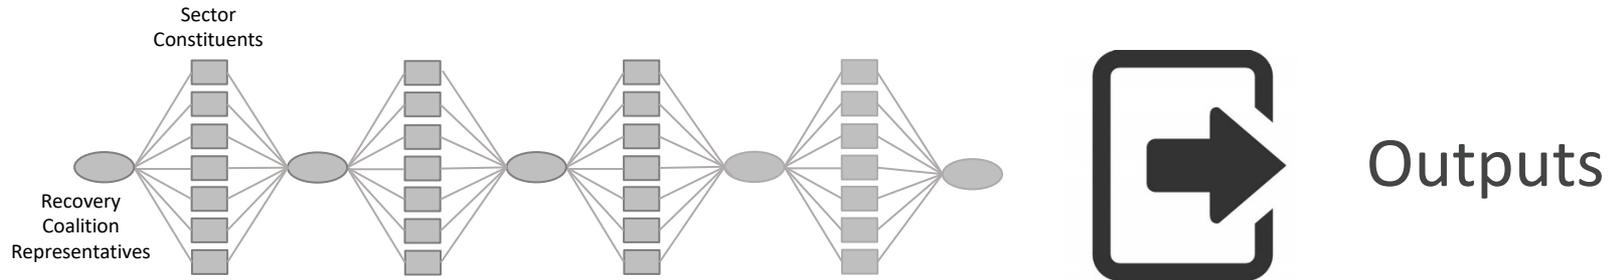

Stakeholders from each sector will convene their larger groups of constituent members...

- to develop, review and react to data
- develop operational plans in response to various scenarios and project the impact to their sector of other plans

These discussions and reactions will then be reflected back to the Recovery Coalition to be incorporated into the planning process

The Recovery Coalition will meet by Zoom as needed but likely once or twice a week in the beginning and much of the work will occur outside group meetings via emails and sharing material to review.

We are looking to *recommend policies and orders* that could be enacted by the Town through the Select Board, Board of Health, Licensing Board, Pier Corporation or Airport Commission, and *policies* that could be recommended to the Governor, where applicable.

We are also looking to *develop operational plans* that would be broadly supported to ensure that we can maintain the effectiveness of public health and public safety while permitting residents and businesses to function as freely as possible. We expect to *establish metrics* to determine the impact of the plans and make corrections as necessary.
